

## Spelling list: ee words - set 1

In a long vowel sound, we say the name of the letter itself. For example, in *reed* or *meet* , the ee sound is stretched out. This is different from the short vowel sound in words like *red* or *met* .

The ee spelling pattern is frequently used to represent the long e sound in English and appears in the middle of words like *beef* and *cheese* and also at the end of words like *bee* , *see* , or *tree* .

When learning the ee spelling pattern, watch out for words that have similar sounds but different spellings and meanings, such as *meet* or *meat* . Click on any word in this list to look it up in the Spellzone dictionary.
